# Quick Coverage Check

---

- Do you know your horse's insured value right now?
- Do you have major medical coverage, or just mortality?
- Would a large emergency vet bill be covered under your policy?
- Are you protected if someone gets hurt around your horse?
- Does your coverage match how you actually use your horse today?

If you answered “no” or “not sure” to any of these...  
you may have a gap in your coverage

# The 3 Biggest Mistakes Horse Owners Make

## 1. WAITING TOO LONG

Most people wait until something happens. By then, options are limited.

Quick Check:

- My horse is currently insured
- I set coverage up before any issues

## 2. NOT UNDERSTANDING COVERAGE

Having insurance doesn't always mean you're actually covered.

Quick Check:

- I know what my policy includes
- I understand my deductible and limits
- I know what major situations are covered

## 3. CHOOSING BASED ON PRICE

Cheaper coverage often means bigger gaps.

Quick Check:

- My coverage matches how I use my horse
- I didn't choose based on price alone
- I feel confident in a real claim situation

# What To Do Next

If you couldn't confidently check every box, there's a good chance something is missing.

I help horse owners and equine professionals understand what coverage actually makes sense for their situation.
